

## Known Bugs

- Change of username is reflected in user profile, but not in navbar
- Reviews are not implemented on a user's profile
- Update profile page does not allow changing profile picture
- Searching an empty string in the search results search bar gives a blank page
- Typing any string into any search bar, deleting it, and searching that empty string gives a blank page
- Upon searching an item, selecting a category, clicking an item, and returning to the previous page, the category field of the search does not save
- Sign up must be done with all lowercase email
- Signing in at the item view page does not update the current user on that page
